

VLADIMIR NIKITIN

FRONT-END DEVELOPER

PERSONAL PROFILE

Hello, I am a person who is very into programming. I have experience in creating SPA with React / Redux / TypeScript. Now I am improving my skills in this direction and expanding them with new technologies. I'm planning to learn React-native because mobile development is very important these days. and I also want to improve my English so that I can communicate freely and understand the interlocutor. I spend my free time developing as a web developer.

CONTACTS

Ukraine, Chernihiv
